Uncompromising Quality  
Ultimate Performance

# ABOUT FIREWORLD BBQ

At Fireworld BBQ, we redefine outdoor cooking with our premium range of high-performance BBQ grills and outdoor kitchen solutions. With years of expertise, we offer world-class grilling technology for homeowners, chefs, restaurants and designers who demand excellence, durability, and innovation.

## OUR BRANDS

## WHY CHOOSE FIREWORLD BBQ

With over 12 years of industry-leading expertise and 10,000+ successful projects across the GCC, **Fireworld BBQ** stands as the benchmark for transforming outdoor living spaces. We specialize in creating **custom-designed outdoor kitchens, premium grills, luxury fireplaces, automated pergolas**, and more — all meticulously crafted to endure the harshest climates and elevate your lifestyle for years to come. Our dedication to **quality, innovation,** and **customer satisfaction** sets us apart, while our commitment to cutting-edge automation ensures that your outdoor spaces are not just functional, but future-proof. Whether for upscale homes, villas, or luxury properties, **Fireworld BBQ** delivers outdoor experiences that exceed every expectation.

## OUR COMMITMENT

At **Fireworld BBQ**, we are not just focused on today but are invested in creating timeless outdoor solutions for tomorrow. We promise **exceptional quality, world-class customer support,** and **long-term durability** in every project. Our team is committed to delivering personalized, forward-thinking designs, with 7/24 support, innovative technology, and comprehensive maintenance that ensure your outdoor experience remains unrivaled now and in the years to come.

## VISION:

Setting new standards of excellence  
by always exceeding customer expectations.

## MISSION:

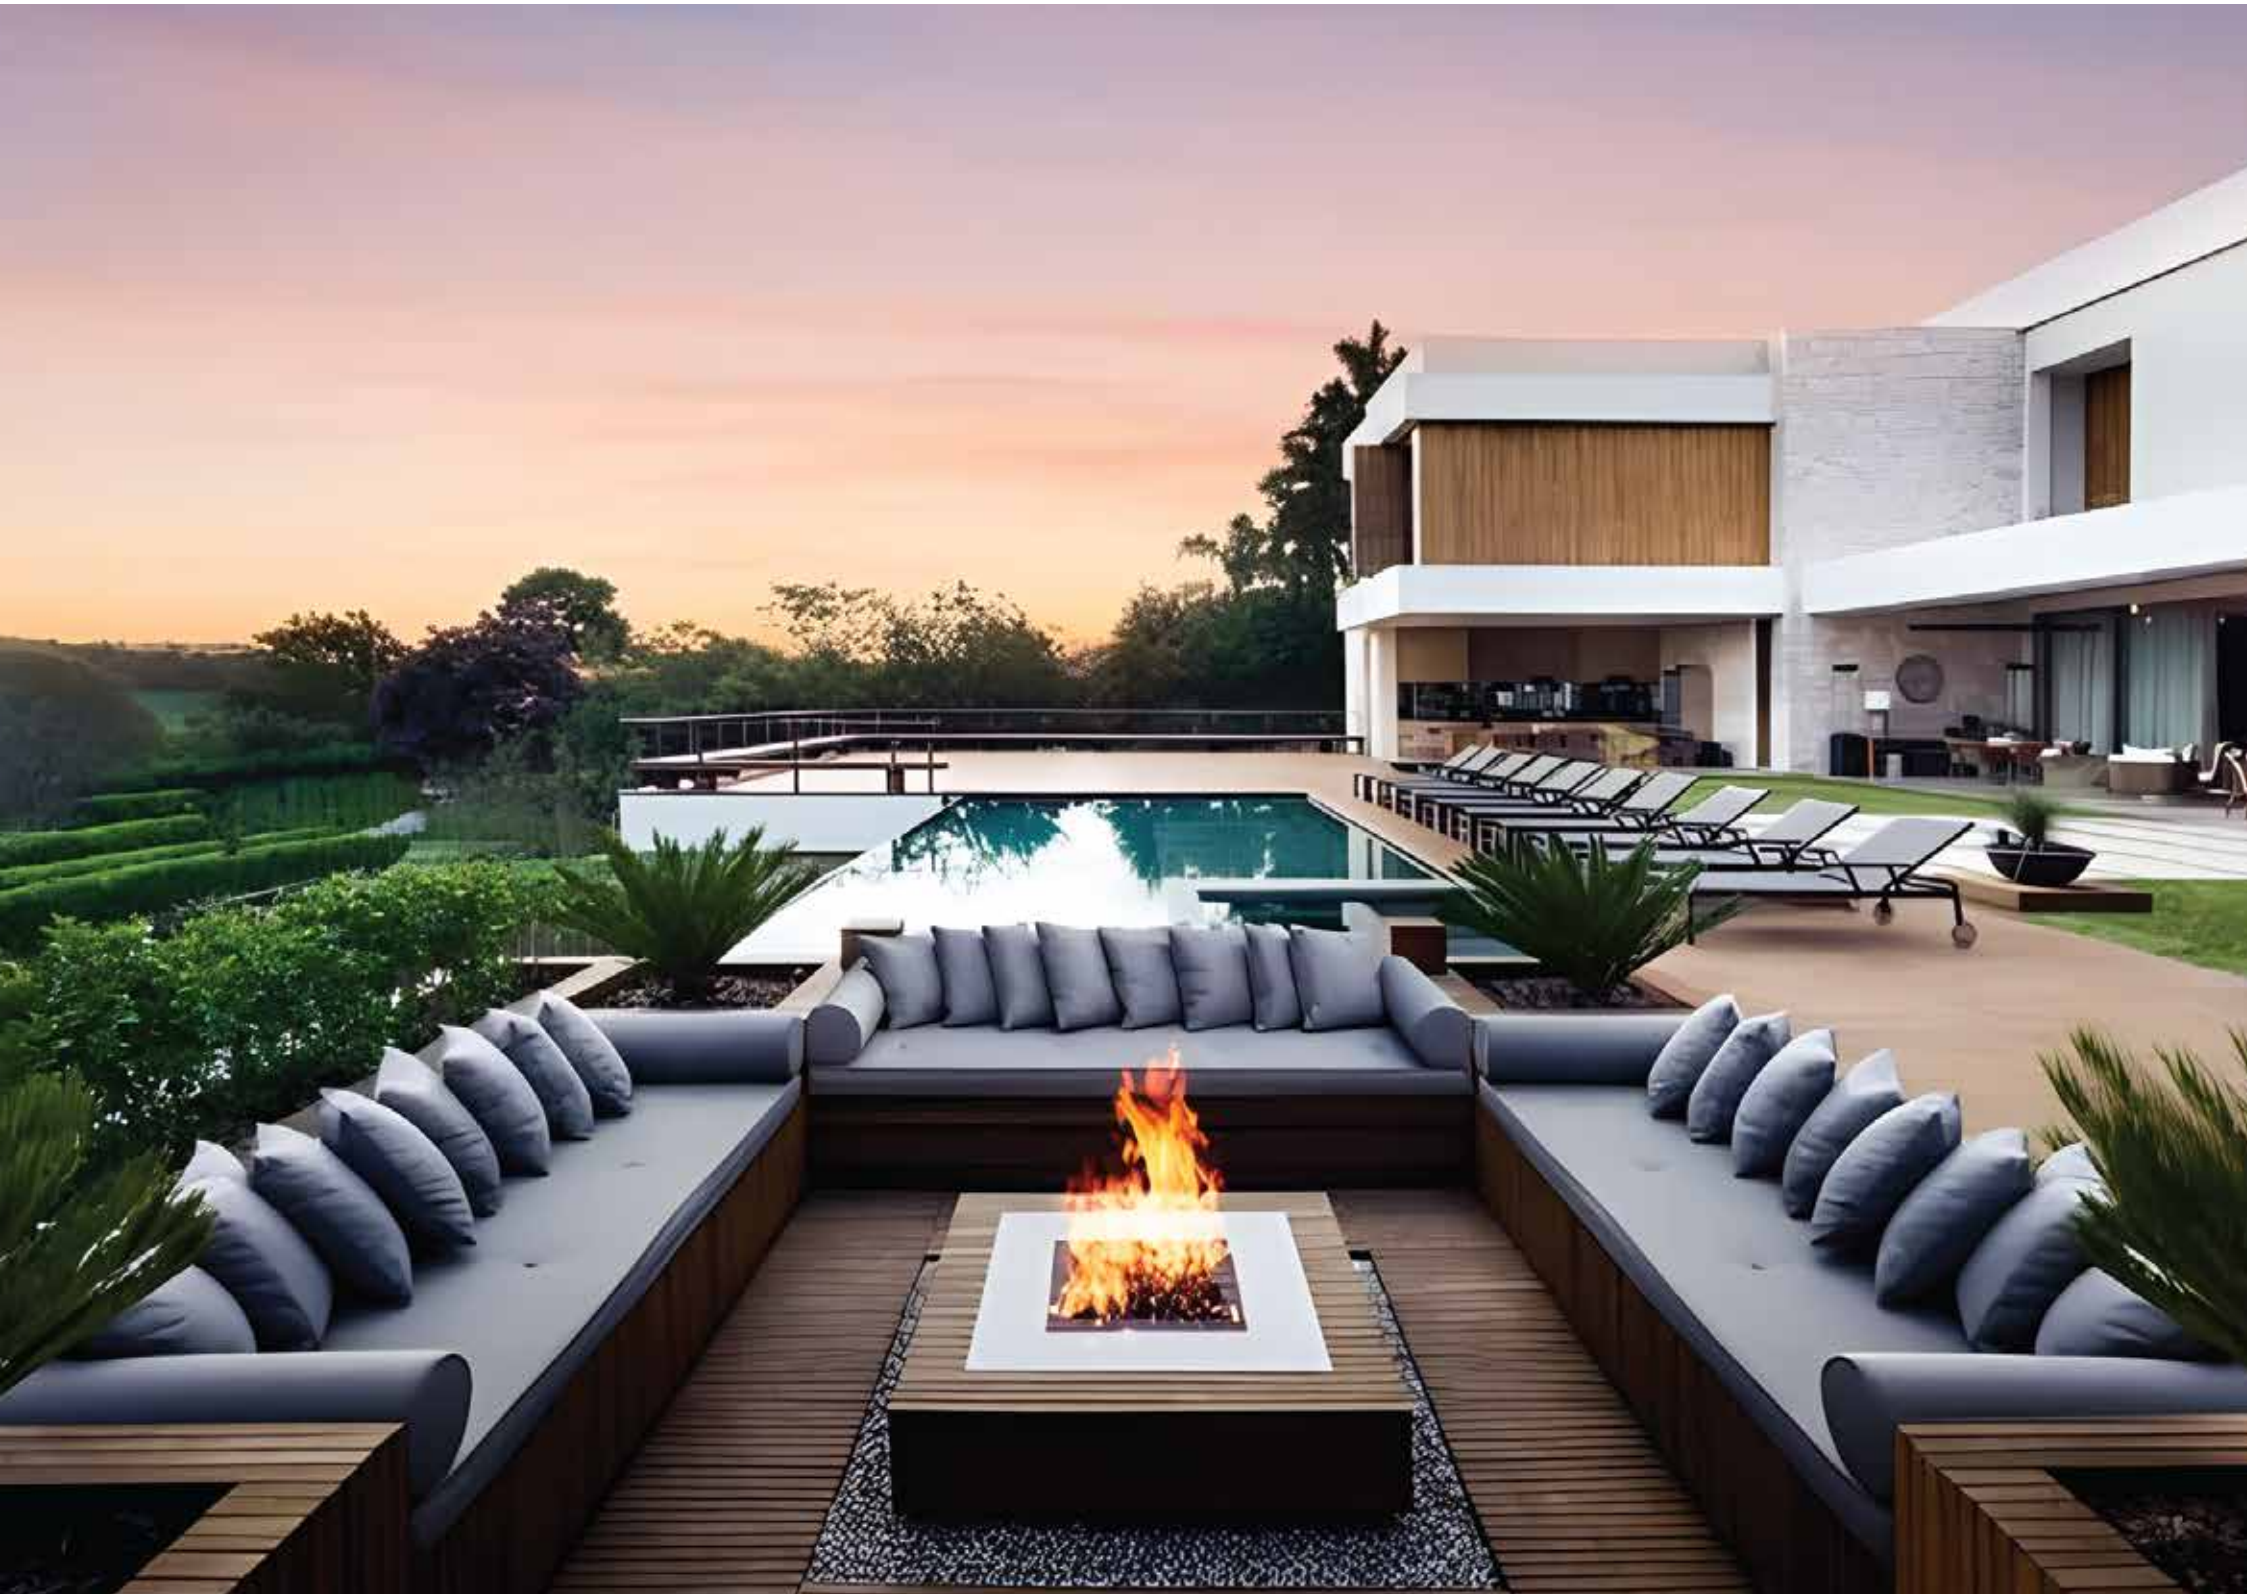

Our mission is to foster lasting relationships with our customers  
by delivering exceptional service and ensuring a seamless supply of  
goods through innovation and cutting-edge technology.  
"Your Passion is Our Mission."

## CORE VALUES:

We believe in treating our customers with respect and faith.  
We grow through creativity, invention, and innovation.  
We integrate honesty, integrity, and business ethics into  
all aspects of our business functioning.

# FIRE FEATURES

An outdoor fire feature provides a beautiful finishing touch to any outdoor living space. These features not only add warmth and ambience to the space but they also provide a focal point for entertaining and gathering with friends and family. We incorporate fire features into a variety of outdoor designs like covered outdoor living spaces, patios, and gardens, and we design them to match the architectural style of your home, making it a seamless and elegant addition to any outdoor living space

**BIOCLIMATIC  
PERGOLAS**

## BIOCLIMATIC PERGOLAS

# What are Bioclimatic Pergolas

Before getting to know what bioclimatic pergolas are, we would like to provide some context and talk about bioclimatic architecture and why it is so necessary for us to rethink our homes with criteria of sustainability, energy saving and comfort.

Bioclimatic architecture is based on the use of environmental conditions for the benefit of the needs of the users of a house. We should not treat the design of a house in a humid area in the same way as a house in a dry area, or, within the same area, houses with different orientations. It is a matter of carrying out personalised projects for each reality and working with materials and structures that provide maximum energy efficiency.

A bioclimatic house can achieve great savings and even become sustainable in its entirety.

From the very beginning, bioclimatic architecture has focused its efforts on the interior areas of houses in search of the longed-for energy efficiency, forgetting, in many cases, the exterior areas such as patios or terraces. This is where bioclimatic pergolas come in, the best tool to enjoy outdoor spaces all year round without leaving the philosophy of bioclimatic architecture aside.

Bioclimatic pergolas are aluminium or wooden structures with adjustable slats on the roof that move to regulate heat, light, humidity, rain and air movement, allowing light to pass through in winter and protection from the sun in summer, or the correct ventilation to help regulate the interior temperature throughout the year

## Main Features

The key to this type of pergolas are their roofs, built with adjustable and motorised aluminium slats. They can be rotated and stopped in a certain position, allowing the desired amount of light to be regulated at any given moment. Thanks to this innovative system, the temperature is controlled, allowing you to enjoy any outdoor area whatever the weather. The possibility of turning the slats also prevents the greenhouse effect, as the air is constantly being renewed, preventing the heat from accumulating.

In addition, these rotating slats are watertight, so that when it rains or snows, you can continue to enjoy them under their protection without fear of getting wet. In fact, they have a drainage system on one of their sides that prevents water from stagnating and falling on the space where they are installed when the slats open again.

LED lighting can also be installed in bioclimatic pergolas, offering the possibility of creating perfect atmospheres to enjoy the space at any time of the day and regardless of the weather. LED lights surround the entire perimeter of the pergola

## Advantages

- Sun protection (Shades are optional with remote controlled operation)
- Remote Controlled operation
- Wind protection
- Rain protection
- Elegant Design
- Easy clean
- Low maintenance

## Types of Bioclimatic Pergola

- 1.Heavy duty (Aluminium profile size:3\*150\*150mm)
- 2.Light duty (Aluminium profile size:2\*120\*120mm)

## Available colours

- White
- Grey

## Available Sizes

1.Heavy duty:

- 270\*300\*300 H cm
- 270\*400\*300 H cm
- 270\*600\*300 H cm
- 270\*400\*400 H cm
- 270\*600\*400 H cm

## Available Sizes

2.Light duty:

- 270\*300\*300 H cm
- 270\*400\*300 H cm
- 270\*400\*400 H cm
- 270\*600\*300 H cm
- 270\*600\*400 H cm

NOTE: we can customize to any sizes

## 4 Burner Grill with Infrared Back Burner and Glass Hood, Lights and Rotisserie Kit

**Model: DG4BSH**

### Features:

- Stainless steel heatproof & shock proof glass hood (double skinned)
- 304 grade stainless steel
- Four stainless steel tubular burners
- Stainless steel fascia panel
- 2 x Stainless steel cooking grills
- Warming rack
- Total Heat Output 65000 BTU
- 12000 BTU per main burner to 15000BTU for rear burner
- **Stainless Steel - Black**

## 4 Burner Grill with Infrared Back Burner and Side Burner, Glass Hood, Lights and Rotisserie Kit

**Model: DG4BGH**

### Features:

- Stainless steel heatproof & shock proof glass hood (double skinned)
- 304 grade stainless steel
- Four stainless steel tubular burners
- Stainless steel fascia panel
- 2 x Stainless steel cooking grills
- Warming rack
- Total Heat Output 65000 BTU
- 12000 BTU per main burner to 15000BTU for rear burner
- **Stainless Steel - Black**

## 4 Burner Grill with Infrared Back Burner Lights and Rotisserie Kit

**Model: DG4B**

### **Features:**

- Stainless steel(double skinned)
- 304 grade stainless steel
- Four stainless steel tubular burners
- Stainless steel fascia panel
- 2 x Stainless steel cooking grills
- Warming rack
- Total Heat Output 65000 BTU
- 12000 BTU per main burner to 15000BTU for rear burner
- **Stainless Steel - Brushed Silver**

## 4 Burner Grill with Infrared Back Burner and Glass Hood, Lights and Rotisserie Kit

**Model: DG4BS**

### **Features:**

- Stainless steel(double skinned)
- 304 grade stainless steel
- Four stainless steel tubular burners
- Stainless steel fascia panel
- 2 x Stainless steel cooking grills
- Warming rack
- Total Heat Output 65000 BTU
- 12000 BTU per main burner to 15000BTU for rear burner
- **Stainless Steel - Brushed Silver**

## Diorr Outdoor Portable Table top Gas Pizza oven

**Model: DTTPO**

**Features:**

- Suitable for outdoor use
- Convenient and light weight
- Material: 304 stainless steel
- Gas type: LPG

Pizza size: 12inch

Cooking grid: 2pcs, 8mm

Product size: 560\*445\*560mm

Cooking area: 340\*330mm

## Powder Coated Portable Gas Pizza Oven

**Model: DPCPO**

**Features:**

- Main material: SS304
- Lid SPCC
- Front lid casting
- Stainless Steel 304 tube burner
- Pizza stone: 12inch

size: 300\*400\*620mm

Cooking area: 305x305mm

# 17" Outdoor Refrigerator

Model: D170R

## Features:

- Outdoor friendly
- 304 commercial-grade stainless-steel
- Condensation-free insulated double-glazed doors with 304 grade stainless-steel frames
- Inside blue LED lights
- No freezer
- Freestanding
- Digital temperature settings on the thermostat
- Capacity = 58 L
- 240-220V/50Hz
- Robust handles
- Lockable doors
- Product size: 42\*49\*68 cm

## Diorr Grills Stainless Steel Charcoal Smoker

**Model: DCSM**

**Features:**

- 18pcs small hooks
- Stainless steel 304.
- 4-layer stainless steel grills.
- Use with charcoal/wood
- Adjustable grills.

Size: 1170\*470\*475mm

## Diorr Grill Stainless Steel Gas Smoker

**Model: DGSM**

**Features:**

- Metal Type: Stainless Steel
- Feature: Easily Cleaned
- Safety Device: Flame Safety Device
- Grill Type: Gas Smoker
- Overall size: 785x565x1240mm
- Smoker Door: stainless steel with handle
- 1pc Thermometer on Door
- Firebox legs: stainless steel
- Chrome plate cooking grid \* 5PCS,
- Size approx: 40 \* 40cm.

# Diorr Grills Wood Pellet Grill Smoker BBQ

Model: DWPSM

## Features:

- Power source: Wood Pellet
- Colour: Black
- Material: 304 Stainless Steel
- For heavy & light duty use
- Advanced pellet feed system
- Induction Fan: stokes fire
- Auger: carries pellets to firepit
- Hot rod: auto ignites pellet
- Hopper capacity: 20 pounds
- BTU's/hour: 25,000
- Auto temperature control: internal temperature sensor with digital control.
- Pellet purge system: digital control
- Electronic auto ignition: digital control
- Cooking temperature: 160°F to 450°F
- Grilling area dimensions: 500\*675 mm
- Warming rack dimensions: 180\*670mm

## Stainless Steel Burning Stove

### Features:

- Stove with carry bag
- Stainless steel handle
- Stainless steel base
- Stainless steel pot holder

size: Base (round)

Diameter: 15 inches [ 38.1CM ]

Height: 32.5cm/12.5 inches

## Round Fire Metal Table

### Features:

- 3mm steel with powder coating black
- 3mm Corten steel with rustic finish for inside.

Size: 120cm Dia

Height: 50cm

## Santa Maria Grills (Heavy Duty)

### Model: DSMGHD

#### Features:

- Santa maria grills are traditional grills
- Built from black enamel steel and 304 stainless-steel grades
- Perfect to use with charcoal or wood
- Adjustable crank wheel & lock
- V shape grill
- Removable grease tray 114 x 52.5 x 167cm

#### Size:

Main Frame: 114 x 52.5 x 167cm

Total: 130 x 77 x 179cm includes handle and crank

V Grate Cooking Area: 55 x 44cm

Base: 35 x 50cm.
